

I want to urge you not to loosen the restrictions on telmarketing calls. I used to get anywhere from 2-6 calls from solicitors - an evening! I so hated the interruptions that I paid the extra cost to get caller ID. Once I had the no-call in place, I might get 1 call every couple of days. My phone # was 574-257-7891. I have since moved and have a new number- 574-232-3123 and have the no-call to go into place 1/1/03. Telemarketer phone calls are more than irritating - they affect the quality of your time at home with your family - something I detest. Please leave this law in place- as is. Thanks!
